

Company Profile

2023 **MAGNUM PACKAGING (PTY) LTD.**

"Thinking about the box"

About Magnum Packaging

Established in 1998, the operation specialised in hand packing & hand finishing.

In 2000, Magnum expanded into the manufacture of small & medium size print work to serve the packaging industry's customers.

Magnum is today one of South Africa's largest privately-owned manufacturers of quality folding carton board packaging.

Contributor to job creation in South Africa.

Currently we employ 65 permanent employees and roughly 40 contract workers. As we grow, so do job opportunities.

Owner managed and run.

Owners have over 60 years of experience in printing & packaging. Customer focus with direct interface with the owners.

Hands on approach to service & quality.

Vision

To be a quintessential partner in printed packaging. Delivering trust, quality and service from a progressive, ethically managed business.

Mission

01

Develop partnerships and trust with our customers and suppliers

02

Collaborating with our suppliers to ensure consistent technological development.

03

Continuous identification and introduction of new and improved processing technology in order to enhance production efficiencies.

04

Improve the skills and lifestyles of our employees and regular assessment and provision of our personnels' competency and training needs.

Values

Integrity

We do the right thing
We are transparent, respectful, honest and ethical in all our interactions with employees, customers, suppliers and the public.

Sustainability

We care how we do things
We work to meet or exceed the highest standards of environmental and safety performance.

Partnership

We care about who we work with
We develop long-term, relationships with our customers, employees and suppliers that facilitate collaboration across the printing and packaging industry.

Innovation

We focus on improvement
We identify, develop and deploy leading edge technology, employee development programs and process improvement tools. We work with enthusiasm and intellect, and are driven to surpass what has already been achieved.

Certifications

You are in the safest hands.

FSC® Certified

The Forest Stewardship Council® (FSC) is an international non-profit, multi-stakeholder organization established in 1993 to promote responsible management of the world's forests. The FSC does this by setting standards on forest products, along with certifying and labeling them as eco-friendly.

FSSC 22000

The Food Safety System Certification (FSSC 22000) for food and feed safety/quality management is an internationally recognized scheme for food safety certification

Disney FAMA Authorised

The FAMA, Facility and Merchandise Authorisation, is the certification authorised by Disney awarded to a company as the right to produce Disney branded products.

SMETA 4 Pillars Certified - SEDEX

SMETA 4-Pillars: labor standards, health and safety, environmental assessment, and business ethics.

BEE Level 2

BEE Level 2 Generic contributor with 125% procurement recognition level.

The mark of responsible forestry

Pre-Press

Support from A-to-Z of the printing process

We offer “computer to plate” technology.

- ✓ Our desktop publishing operators are always available to assist you with typesetting, required changes and layout advice.
- ✓ We maintain an electronic library of all jobs produced and can quickly access reference material or layouts required for reprints.
- ✓ MSM Sample cutter to supply new designs and samples.

Our Machinery

In-house sheeting

- Board sheeting machine

Printing

- Roland 700 Lithographic Press 5 colour
Water base Roland
- 700 Lithographic Press UV

Laminating

- Fully automated

Die Cutting

- Bobst SP-102-CER
- Brausse 1060 ER
- Yawa MW 1050 YA Automatic Die Cutter
- Dyna Cut & Lee Tide Plattens

Gluing

- 2 x Brausse High Speed Gluers
- Clamshell Erector
- Window Patching Machine

Sheeting

In-house board sheeting

- Faster board availability
- Flexibility in warehouse and printing department
- Customised sheet sizes
- Reduced running waste
- Improved quality with auto-checks

Printing

- 2 X Roland 700 Machines
- 5 Colour
- Water base
- UV Varnish

X-Rite/Rutherford PreSet and Closed Loop system. Faster make-ready, print quality and colour consistency throughout print run.

Litho-laminating

Fully automated e-flute and b-flute laminations.

The litho-laminating process is a means of creating corrugated board that has a high quality, litho printed surface.

The process uses individual sheets of corrugated board as the carrier, while the top liner is coated board fed from a pre-printed stack of individual printed sheets.

- 4 & 6 Corner
- Crash lock
- e-Flute

NEW INVESTMENT:

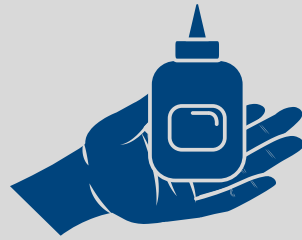

Speed Wave XL 1100 Series

- Straight line
- Two sided – glue system
- 4 & 6 corner, Crash lock, e-Flute
- efficient production
- promoting sustainability

Clamshell Erector Window Patching Machine

Hand Finishing Team

Hand finishing still provides a vital niche service for brand promotions and product launches

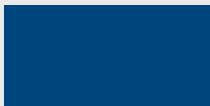

Benefits

Level 2 (Generic) BEE Contributor – 125% procurement recognition level

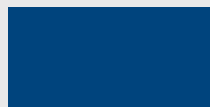

Owner managed and run

Passion for our work and combined years of packaging experience

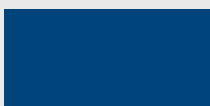

Regular and detailed quality checks

Developing business with a clear customer strategy. Service, Quality and Price – creates the base of the customer relationship.

Our philosophy at Magnum Packaging is based on quality, integrity and above all honesty.

We have solid environmental and sustainability practices. We produce cartons with recycled/recyclable board material.

Continuously investing in technology ensures that we deliver a higher output at an improved quality, whilst also reducing waste.
